SWISS PERFECTION

MONTREUX

Enjoy a truly Swiss skincare experience with Swiss Perfection. The first brand to apply plant cell extraction technology to cosmetics, Swiss Perfection with its signature Cellular Active IRISA® complex enjoys an unrivaled reputation for performance, prestige and quality, developing premium formulations that deliver highly visible results.

Only the purest and most perfect flower - the Iris Germanica - was chosen to create the exclusive signature Cellular Active IRISA® complex. The brand's DNA is made from iris root cells harvested in the pristine gardens of the Swiss 'Château de Vullierens'.

Swiss Perfection strongly identifies with the essence of Switzerland - quality and "savoir faire". For this reason, the entire product range is formulated, developed and produced to the highest quality standards formulated, developed and produced locally in Switzerland. All Swiss Perfection products and treatments therefore bear the internationally renowned "Made in Switzerland" label.

About Swiss Perfection and Cellular Active IRISA®
The brand's signature ingredient Cellular Active IRISA® has been proven to reduce the breakdown of skin cell DNA and preserve naturally occurring collagen in the skin.

Thanks to its excellent antioxidant properties, it has the extraordinary ability to protect cells from both premature ageing and free radical damage.

London-based interior designer Hayley Dawes has spent years successfully creating dream homes for her clients. Only she herself was unable to find peace and quiet in her own home and suffered massively from insomnia. After trying all sleep-inducing methods with little success, the game-changer was the discovery of the transformative power of CBD. From this, she developed 'Dreem Distillery', a wellbeing series for lasting relaxation of body and mind and a restful night's sleep.

HORST KIRCHBERGER

MAKE UP

“Easy application – professional results“,
this is how Horst Kirchberger explains his unmistakable
brand, which is constantly being optimized and expanded.

The particularly long-lasting results and the excellent
"problem solvers" for the skin give women
women with confidence and a good feeling when applying
the products. Innovative textures and high quality
standards underline the brand's outstanding expertise.

"The make-up is developed and manufactured according to
the latest scientific findings," emphasizes Horst Kirchberger,
"most of the ingredients are mineral-based and also
suitable for particularly sensitive skin!"

Massages

Dream Distillery – pressure releasing massage with CBD

A deeply effective, sleep-inducing treatment that transports the skin and senses to a starry sky... Also helps with aching joints, tense neck and shoulders.

The relaxation journey begins with a grounding, opening body ritual, followed by a leg massage to stimulate circulation. This is followed by a gentle foot scrub that softens the skin and reveals new skin. The subsequent reflexology therapy at various pressure points releases tension and removes stagnant energy throughout the body.

60 minutes | € 182.00

Aurelio's Signature-Treatment

Indulge yourself after a long day of skiing in this rejuvenating massage, combining the natural therapeutic properties of essential oils and the healing power of massage therapy. After thoroughly exfoliated and massaged the legs and feet are nourished, soft and smooth. A warm towel ritual will leave you with a sense of being pampered while receiving a stress-relieving head and neck massage. This aroma-based oil massage will leave you feeling deeply relaxed and revitalized.

Spa Etiquette

Let us advise you

Our therapists also pay attention to certain health conditions. For this, we ask you to fill out our health check before the start of treatment in the interests of both parties. Please let our therapists know your wishes and preferences regarding music, temperature, light, massage pressure, etc. at any time.

Take a relaxed approach

To prepare your body for the upcoming treatment in the best possible way, we recommend a visit to our aroma steam bath beforehand. This will get your circulation going, warm up your body and open your pores. Please arrive at the SPA reception 10 minutes before the agreed treatment appointment and make yourself comfortable. Hotel guests are requested to arrive at the SPA already showered and wearing a bathrobe and slippers.

Storage of valuables

Please leave all valuable items in your room safe or in the lockers in the changing rooms. The Hotel Aurelio does not take over any liability for lost valuables.

Payment methods in the SPA

The Aurelio SPA team books the treatments of our house guests directly to their rooms. Cash payment as well as payment by debit or credit card is of course also possible at the SPA at any time.

Spa Etiquette

In case something comes up

Treatments can be cancelled free of charge up to 12 hours before the start of the treatment. Please note that we will have to charge 50% of the treatment cost for any later cancellations and 100% in the event of a no-show. Late arrivals will shorten the time of your treatment.

Children

We ask for your understanding that children under the age of 16 are not permitted access to the sauna area.

Calmness and consideration...

...are the basic prerequisite for deep relaxation. Out of consideration for other guests, we ask you to switch off your cell phones during your time at the SPA. Please also refrain from using video and photo cameras throughout the SPA and keep the volume of your conversation to a reasonable level in all areas out of consideration for other guests.
